ABSTRACT

This bibliography contains a comprehensive listing of the papers and reports on higher education that appeared in the July 1969 through June 1970 issues of Research in Education. Not included in the listings are documents on vocational and technical education, educational facilities, and junior colleges, unless these studies were directly related to 4-year institutions and specialized curricula. The documents are listed under the following headings: (1) alumni, (2) curriculum and innovations, (3) disadvantaged, (4) faculty, (5) finance, (6) foreign students and international education, (7) governance, (8) graduate and professional education, (9) institutional structure, (10) libraries, services and personnel, (11) planning and coordination, (12) research, (13) student characteristics and role, (14) teaching and learning, (15) technology and media, and (16) university responsibility and social change. A subject index concludes the bibliography. (AF)

Current Documents in Higher Education is published twice a year, spring and fall, by the American Association for Higher Education, Suite 780, One Dupont Circle, Washington, D.C. 20036. The annual subscription rate is $4. Checks should be made payable to AAHE.

This publication was prepared pursuant to a contract with the Office of Education, U.S. Department of Health, Education, and Welfare. Contractors undertaking such projects under Government sponsorship are encouraged to express freely their judgment in professional and technical matters. Points of view or opinions do not, therefore, necessarily represent official Office of Education position or policy.

Foreword

This bibliography is the third in a series compiled from monthly issues of *Research in Education*. The title has been changed from that of the first two publications in the series—*Higher Education: A Bibliography of Documents Selected from Research in Education*—to *Current Documents in Higher Education: A Bibliography*, but the format remains the same. It includes a comprehensive listing of the papers and reports on higher education that appeared in the July 1969 through June 1970 issues of *RIE*. In addition to documents abstracted by the ERIC Clearinghouse on Higher Education—which is concerned with undergraduate, graduate, and professional education—the bibliography contains studies on higher education that fall within the topical scope of other clearinghouses in the ERIC network and therefore do not appear under an HE (Higher Education) heading in *RIE*. Because of space limitations, however, we omitted documents on vocational and technical education, educational facilities, and junior colleges unless the study was directly related to four-year institutions, and specialized curricula.

Research in Education, the source of this bibliography, contains abstracts of all recently completed and ongoing studies supported by the U.S. Office of Education, as well as abstracts of other significant reports located by the ERIC clearinghouses. The documents are indexed by subject, author, and institution. Abstracts of the documents listed in this bibliography appear in the issue of *RIE* referred to in the last line of each entry. Microfiche and hard/photo copies of the complete text are usually available from the ERIC Document Reproduction Service (EDRS), National Cash Register Company, 4936 Fairmont Avenue, Bethesda, Maryland 20014. Payment must accompany orders of less than five dollars. Documents not available from EDRS may be obtained from the institution listed in the entry.

Because of the volume of material covered in *RIE*, we thought that researchers would appreciate having a single source of information on higher education. We welcome suggestions that would make these bibliographies more useful. In the future, we intend to compile them semi-annually. Interested researchers, faculty members, students, and administrators can help us include significant and timely documents on higher education by sending two copies of appropriate materials to the ERIC Clearinghouse on Higher Education, The George Washington University, One Dupont Circle, Suite 630, Washington, D.C. 20036.
